

China Standards Notes

June 26, 2009

- Four national standards for organic products are available for public comment on the Certification and Accreditation Administration of China (CNCA) website. Please submit comments before July 22.
<http://www.cnca.gov.cn/cnca/zwxx/xwdt/zxtz/186152.shtml>
- China's Ministry of Industry and Information Technology (MIIT) has announced 193 telecommunications industry standards and five related technical requirements.
http://www.ptsn.net.cn/article_new/show_article.php?article_id=cyzx_e26da7c8-8fda-720e-8748-4a42d662c969&categories_id=84120dc6-1f8f-9522-9d4a-44b1bedcc0ab
- The Standardization Administration of China (SAC) announced guidelines for reviewing industry standards that were issued before December 31, 2008. The guidelines are meant to address redundancies and contradictions among industry standards and national standards.
<http://www.sac.gov.cn/templet/default/ShowArticle.jsp?id=5100>
- China submitted 12 standards/technical regulations to WTO/TBT notification center (notification number CHN/649-662). The submission includes Administrative Measure on Inspection, Quarantine and Supervision of Imported SWRM; Safety signs for mining machinery (HS 8430); Mechanical mining shovel (HS 8430); along with certain products under HS 8456. Please check [Notify U.S.](#) for the details.
